## **CURRENT PROJECTS**

*The Little Entente of Women.* Together with a team of researchers from the Balkans, I have received an EU grant disseminated through the Greek government to establish a digitized archive of this transnational organization and to coordinate analyses of this material. We seek to publish one or more volumes of studies, as well as a documentary film on the activities of this network. Intermediary activities include several panels at international conferences and a major grant application. The project has been delayed due to COVID and will commence in 2022.

*Towards a History of Disability in Eastern Europe and the Former Soviet Union*, PI. I applied to the Institute for Advanced Study, IUB, for a collaborative grant that I and 6 other scholars would work through, to establish some research and dissemination modalities for making inroads into a transnational history of disability in Eastern Europe.
